Are there hidden charges in doing a 1031 exchange? Is there a time constraint? Let our let some of our satisfied customers tell you.

"What can I say other than. `Thank you'. The 1031 exchange that your firm handled for me was flawless, professional, economic and timely!"

"Truth be known, I was very anxious about the exchange due to the fact that your firm was out of state with the `dot-com' stereotype as part of your company name. I must tell you, however, from the very first discussion all the way through to the final wire transfer, your execution was flawless."

"This exchange was rather tight with approx. 24 hours between receipt of funds by 1031x.com and the delivery of funds for the new property purchase. The sum of money was rather large; yet the fee you charged me was so small."

"In all, 1031x.com was \$1,200 less than other qualified intermediary fees that I was quoted. In addition, my concern about being nicked by 1031x.com hidden fees was unfounded. The fee you quoted me up front was the total that I paid- no surprises!"

"Please feel free to add my name to the list of totally satisfied customers. Y'all are the best! Thanks again."
